

## REPUBLICANS IN TALK WITH TAFT

President Meets Illinois Party Leaders in Peoria.

## BATTLE CREEK TURNS LOOSE

Greeted Nation's Chief with Largest Single Audience of His Tour—He Tells Hearers Annexation Talk is "All Bosh."

Peoria, Ill., Sept. 22.—President Taft's visit to this city was the signal for a great gathering of the Republican clans of the state.

He was the guest of the Republican state central committee at a luncheon at the Peoria Country club as part of the program of entertainment provided. Peoria is the home city of G. Forest Kinney, Republican state committeeman. Invitations had been issued to state administration Republicans and leaders in the federal wing to be on hand to aid in receiving the nation's executive.

Governor Deneen's friends are disappointed in that he was unable to be on hand because of a broken leg that still keeps him confined to the executive mansion.

At Battle Creek, Mich., Thursday President Taft had the largest single audience that he has had on this trip. More than 30,000 people gathered to hear the president speak for the first time since the opening of the Canadian campaign on reciprocity. He told them that the talk of annexation with Canada was bosh.

This was the second important address which Mr. Taft delivered. In the morning at Grand Rapids he made his formal explanation of his vetoes on the tariff bills.

The meeting at Battle Creek was held at Railroad park, an almost perfect natural amphitheater. The crowd before the president covered three acres. The president told them that he thought that then he could talk on reciprocity without having his remarks twisted into an attempt to influence the situation in Canada. Said he: "I know that some irresponsible newspapers have called me a trickster and a swindler and say I in some way deceived or played unfairly with the ministers of Canada to secure the treaty. Well, I am not conscious of it and I don't believe that they are. There was no any trick about it, the cards were laid on the table.

"They said we want to annex Canada—bosh. "Gentlemen, my experience in this government has taught me that we have territory enough without enlarging our borders. Canada is our neighbor and along that border line of miles there is not a gun or fort or a battle-ship worthy of the name. They have their troubles; we have our own.

"I can say for one that the talk of these outsiders who say that the trade treaty was to facilitate annexation is bosh."

The president said that for himself he wished he might have the privilege of tearing down every custom house on the Canadian border and to give the two countries free trade.

The address at Grand Rapids on the tariff veto was probably the most important address of this trip from a political point of view.

## TRAIN ROBBER CONFESSES

Man Gives Up to Wisconsin Police for a Holdup in North Dakota.

Neenah, Wis., Sept. 22.—The local police took into custody a stranger who says he is one of the three train robbers who held up the Northern Pacific fast passenger train at Buffalo, N. D., several weeks ago. He goes by the names of Pat Crowe and John Young, he says. The sum of \$12,000 was stolen from the express car at the time of the robbery and the engineer was shot. A reward of \$10,000 was offered for the arrest of the men.

When asked if he did not break jail at Chippewa Falls two years ago he said he had and when asked if he had served time in the Illinois state prison at Joliet for robbery he replied in the affirmative.

## TILLMAN IS TO RUN AGAIN

South Carolina Man Announces Candidacy at Columbia.

Columbia, S. C., Sept. 22.—Senator Benjamin R. Tillman's announcement that he was a candidate to succeed himself was made public here.

This refutes recent stories that he might refuse to run because of failing health. Probably he will be opposed by former Congressman W. J. Talbert of this city.

## TWO INJURED WHEN HORSE IS FRIGHTENED

Mrs. Henry Staley who lives on one of the Read farms east of Ypsilanti was seriously injured in a runaway accident Thursday afternoon while on her way to Ypsilanti.

Mrs. Staley in company with her daughter Bertha started to drive to Ypsilanti about 3 o'clock. When they were about one mile east of town a bolt on the thill became loose allowing the thill to drop on the horse's foot. This together with the noise of approaching passenger and freight trains on the Michigan Central frightened the horse and it began to run. Miss Staley was driving. The carriage began to swerve from one side of the road to the other as the horse increased its speed and Mrs. Staley was thrown violently to the ground when they had gone a short distance, breaking her right limb in two places between the knee and ankle.

The daughter, after her mother was thrown to the ground, clung to the reins for about 20 rods when she turned the horse into a fence. The horse then wheeled about, throwing her to the ground and loosening itself from the carriage, started for home.

Mrs. Staley and her daughter were taken to the home of William Collins just east of Ypsilanti where physicians were called and the injuries cared for. An ambulance was summoned and both were taken to their homes. Miss Staley escaped without serious injuries, being bruised about the arms and shoulders. Mrs. Staley was also bruised about the body. She has been well cared for, however, and she was reported resting this morning with comparative ease.

## APPLES ROT ON GROUND

Good Grade of Fruit Wastes for Lack of Buyers.

Grant, Mich., Sept. 22.—Never before were the farmers of this vicinity at such disadvantage in the apple line as at the present time. Local buyers are only taking first-class stock for shipment, and the late winds have covered the ground beneath the trees with a grade of fruit that will not permit of shipment for market purposes and yet the fruit is superior to that taken in here in previous years at the canning factories.

It is a lamentable fact that the lying idle of the local cannery this season has taken thousands of dollars from the farmers who now have many bushels of stock lying beneath the trees rotting.

## FLUE BURSTS ON YACHT

Engineer and Fireman Are Badly Scalded.

Saginaw, Mich., Sept. 22.—Walter A. Henry, engineer on the H. T. Wickes yacht Capitola, and Arnold Severin, fireman, were scalded when a flue burst in the water tube boiler. Henry was brought to his home and the fireman was removed to St. Mary's hospital.

The latter's condition is more serious than that of the engineer. The Capitola was outboard when the accident occurred. The injured men were moved in a small boat to the interurban bridge and brought here on a car.

## ASSASSIN GUARDED PREMIER

Great Sensations Promised at the Inquiry into the Murder of Stolypin—Several Officials Are Under Suspicion.

St. Petersburg, Sept. 22.—Inquiry into the assassination of Premier Stolypin at Kiev, with particular reference to the revolutionary and police elements involved, is being conducted personally by the minister of justice, M. Ohtchegiovitch.

Already there are indications of many ramifications in the Stolypin mystery and of complicity on the part of prominent officials. Great sensations are promised. Vice Director of the Department of Police Verigin is under strong suspicion by the authorities, who hold that he was responsible in a measure for the outrage.

The protection of the emperor and empress and the cabinet ministers at Kiev formed the subject of departmental discord. Governor General Trepoft demanded general oversight of the protective measures, but was overruled by the director of the department of police, M. Kurloff. Verigin, Lieutenant Colonel Spiridovitch, chief of the secret police, organized the protection, which cost \$100,000.

While Verigin and Kurloff were at Kiev on the eve of the emperor's visit Dmitri Bogroff was consulted and given the responsible position of guarding the premier, as he promised to track alleged terrorists, Nina Alexandrovna and Nicholas Jacovlivich. It is incomprehensible to those engaged in the inquiry how a subordinate, as Verigin was, dared to disregard Stolypin's circular regarding revolutionary spies and allow Bogroff, a spy and informer, to guard the premier.

## CHURCH COLLAPSES

One Man Killed and Six Others Injured at Wausau, Wis.

Wausau, Wis., Sept. 22.—One man was killed and six injured as the result of the collapsing of the new \$50,000 St. James Catholic church here.

The dead: John Wachel, bricklayer, living in Milwaukee; fracture of pelvis and internally injured; died later.

## LONG TIME RESIDENT DIES AT AGE OF 81 AFTER LONG ILLNESS

George Cady, 81, died this morning after an illness of several months at his home on Oak street. He was taken with an attack of the grippe during the fore part of the winter and never fully recovered from its effects. He leaves one daughter, Miss Mary Cady, who has cared for him during his long illness. His wife died four years ago. He was born near Plymouth and has lived in Ypsilanti for over 25 years. Mr. Cady of the Detroit firm of Lee and Cady is a nephew.

The funeral will probably be held Monday although the arrangements are not completed.

## BOYS IN BURGLAR ROLE

Rob Grand Rapids Homes and Secure \$350 Cash and Jewelry.

Grand Rapids, Mich., Sept. 22.—Shielded by their tender ages, eight mere lads, Stanley Totaszczaritz, eight years old, and Mike Osecki, nine years old, are being held in police headquarters for the most daring robbery ever chronicled in the juvenile records in this city.

The two lads obtained keys to two Michigan avenue houses and systematically burglarized the residences securing \$350 in cash and \$100 worth of jewelry. After the robbery they got on a car and went to Reed's lake a local resort, where they spent their money freely. Their lavish expenditures attracted the attention of detectives and their arrest followed. Both lads have confessed.

# RECIPROCITY DEFEATED IN CANADA BY BIG MAJORITY

DR. HOLMES HEAD OF MOVEMENT TO REDUCE MINE FATALITIES; BIG CONFERENCE IN OCTOBER.

Washington, Sept. 22.—The great conference of miners at Pittsburgh during the last week of October to discuss methods of reducing the fatalities in mine accidents will, from all indications, be attended by no less than 30,000 men. President Taft will deliver an address. Dr. Joseph A. Holmes, director of the United States bureau of mines, originated the idea of the conference and is now working on the plans to make the meeting one of pronounced value.

## HOTEL MEN ARE BARRED

All Who Hold Saloon Licenses Are Not Desired by Odd Fellows.

Indianapolis, Sept. 22.—Hotelkeepers holding saloon licenses were barred from the order of Odd Fellows by action taken by the sovereign grand lodge, in session here.

Saloonkeepers have been barred for some time and a fight has been on to put the hotel proprietors in the same class. The change was advocated by Grand Sire John B. Cockrum.

**Alleged Black Handers Arraigned.** Saginaw, Mich., Sept. 22.—Saginaw's alleged black handers, John Massine, Sando Labenie and Nicolo Alfano, refused to plead in the circuit court to the charge of assault with intent to rob, and the court ordered a plea of not guilty entered. Massine, when arraigned on a charge of intent to murder, pleaded not guilty.

**Picked Up Unconscious.** Cadillac, Mich., Sept. 22.—The apparently dead body of Walter Winship of Chicago was picked up by an automobile party two miles from this city. The man was unconscious and physicians believe he had been stricken with paralysis. Letters on his person indicate he is from Chicago. His age is about thirty.

**Misfit Shoes May Cost Life.** Kalamazoo, Mich., Sept. 22.—Because he wore a pair of shoes that were too large for him Osmar Counsel is in Bronson hospital suffering from blood poisoning. His condition is extremely critical. Physicians graffed skin from a brother in the hope of stopping the spread of the poisoning on the man's foot.

**Death Claims Petoskey Priest.** Petoskey, Mich., Sept. 22.—Father Callistus Wagemer, thirty-two years old, died in St. Francis monastery after four years' suffering from tuberculosis. He was the son of Frank X. Wagemer, of Petoskey. Two brothers are priests and three sisters nuns.

Conservative majority—48.

Montreal, Sept. 22.—Reciprocity with the United States has been rejected, the Laurier government has been defeated and Mr. R. L. Borden will shortly be called upon to form a Conservative ministry.

The Liberal majority in the house just dissolved was 43. Only two Nationalists, followers of Henri Bourassa of Quebec were elected, so all the speculation as to their course in the next commons goes for naught. The Conservative victory is all the more complete as it was not gained by an overturn in one or two provinces, but is the result of victory all along the line. The "Tories," out in the cold for 15 years, are as surprised over the completeness of their victory as the Liberals are over their defeat. Laurier is expected to retire to private life, but may take a place on the Ottawa Improvement commission. The coming session of the new Conservative parliament undoubtedly will be short, passing only the supply bills. Probably no mention of reciprocity will be made at all.

Seven of the 13 members of the Laurier cabinet were defeated for their own seats.

That the changes enacted during the past 24 hours by the registration of the will of the electorate are radical is shown by the overwhelming majority whereby the voters turned down the agreement which Laurier had made with the United States for the mutual removal of duties on food and other natural products, by the defeat of seven cabinet ministers out of the 13 who went to the polls, and by the political landslide which will retire to private life Sir Wilfred Laurier, acknowledged to be one of the biggest figures in the British empire.

Out of nine Canadian provinces only Quebec, Laurier's native place, came anywhere near remaining faithful to him, and Quebec did not do any too well.

Ontario, the greatest of the provinces, while the liberals lost all along the going almost solidly against him, and the same may be said also of Manitoba and British Columbia. Saskatchewan and Alberta, two great wheat-raising provinces, gave a mild support of the cause of reciprocity.

Parliament is to be summoned as soon as the election writs are in and the usual formalities which follow an election are completed.

There is much curiosity as to the identity of the men Mr. Borden will invite to portfolios under his new government. Public opinion is agreed that the Hon. George E. Foster, former Conservative minister of finance; Premier Hazen, of New Brunswick, and Robert Rogers, minister of works for Manitoba, will secure places.

As for the reciprocity agreement it is not likely to be heard of again soon in the Canadian house. Any measure of this kind must be introduced from the government side, and it is not likely that Mr. Borden and his followers will make any move in the matter.

There is considerable interest manifested in the view which the people of the United States will take of the overwhelming rejection of reciprocity. The new conservative majority in

the common will work for trade expansion with the British empire and a closed door against the United States.

While the Liberals lot all along the line the hardest blows came in Ontario and Quebec. Sixteen seats were lost in the latter and 20 in the former.

The landslide was not expected by either side. The Liberals were confident that they would be returned by the people with an increased majority, for they believed that reciprocity would be most acceptable to the Canadian electors. While the Conservatives claimed that they would have a majority they did not expect that it would be so large or that the general verdict of the country would be given so decisively against the government.

They feared that reciprocity would prove popular with the farmers of Ontario, and the farmers and fishermen of the maritime provinces, and while confident that they would win in the cities, they were dubious as to the result in rural constituencies.

However, in Ontario especially, the agricultural vote went almost solidly against reciprocity, and in the maritime provinces it did not prove to be the popular issue expected. The farmers and fishermen of the east do not appear to have placed the high value on the American market which was anticipated.

Although the majority of seats won by the Conservatives is nearly half a hundred, the popular majority against the government and reciprocity is even more overwhelming. Where Liberal seats were retained or won from the opposition, it was generally done by an exceedingly small margin. The Conservatives everywhere were returned by majorities larger than have ever been given before in a Canadian election.

The election results indicate that the Canadian electors were moved by sentiment more than by material consideration. Throughout the campaign the Liberal speakers and the government party press, in appealing for the support of the government and reciprocity, did so chiefly on economic grounds, maintaining that it would promote the prosperity of Canada and would never lead to annexation with the United States, or to any change in the political status of the Dominion.

The Conservatives, on the other hand, while arguing against the economic advantages of reciprocity, dealt with more emphasis upon sentimental consideration, insisting that the eventual result of reciprocity would lead Canada from Great Britain and to the United States and calling on the electors to prevent this.

The result of the election works so complete a disorganization of the Liberals that the Conservatives probably will remain in office for many years before their authority can be seriously challenged. The former Conservative government held office for 13 years and the Laurier government, which has just been turned out, followed with 15 years of power.

The only consolation the Laurier government is able to take out of the situation is that it went down to defeat after the hardest of fights and on one of the greatest issues that has ever been placed before the Canadian electors.

The verdict is looked on as a triumph for the cause of protection and a victory for manufacturers of Canada, who were openly and avowedly opposing the government because they feared the removal of duties upon natural products would be followed by an attack upon the protection which Canadian manufacturers have enjoyed for many years.

Several large affairs will require the immediate attention of the Borden government. Although reciprocity dies a natural death, the Conservatives are likely within a short time to give their attention to the revision of the Canadian tariff, which Mr. Borden favors, and with the tenders for the Canadian navy, a project which has been denounced by the French Nationalists of Quebec.

Mr. Borden promised if elected to increase government ownership of public utilities and telephones, aid the west in the establishment of terminal elevators under government supervision, promote construction of the Hudson bay railroad to develop terminals on Hudson bay and see that a fleet is put on the route between Hudson bay ports and Europe to carry out during summer and fall the wheat and cattle of the west.

The sharp advance in the price of refined sugar may well invite the query whether shortage in raw material and extraordinary demand by consumers are solely responsible for the increase. The sugar industry is passing through a reconstruction period which has done much toward changing the legitimate course of the business from a manufacturing standpoint. But with large territories of the United States now devoted to beet cultivation and the beet constituting a principal source of supply, the question arises whether Latin America might not be able to contribute more largely of cane sugar and thereby obviate any shortage such as this that the American refiners say has raised the price of the refined article.

Whether duty on sugar stands in the way of larger importation of the raw material or not, the fact remains that in many of the Central American states renewed efforts are making to raise the industry to a point of efficiency where it will not only pay the industry to cultivate on a larger scale but where they will be able to compete with the beet product. The southern countries have in reality merely scratched the surface so far as the adaptability of the soil is concerned. In Venezuela, to mention one South American nation which seems to realize the importance of getting ready for sugar export, the government is now assisting the planters to get a more solid footing. The same is the case in Panama.

But it is scarcely a fact that the Latin American nations have their eyes centered solely on the United States as a sugar consumer. It is true to say that the staple is needed everywhere and in increasing quantity. On the other hand, it is likely that if the United States does not invite larger export of sugar from Central or South America these countries will look elsewhere for markets when once they get going as producers.

Porto Rico stands as an example of what modern methods may do for the sugar planter. In ten years the annual production of cane has risen from 69,000 tons to 300,000 tons. Irrigation could bring similar results for those sections of continental America that are favorable for cane cultivation except for deficient rainfall. As for the American refiner desiring raw material close at home, he might look to Mexico, where under existing primitive conditions 2000 sugar mills are pointing the way for a large output when modern machinery becomes effective.

President Taft is expected to ride behind four span of Missouri mules when he reaches Sedalia. The purpose, it is thought, is to show him that the Senate is not so bad at times as he thinks.

## CURIOUS BITS OF HISTORY

By A. W. MACY.

## HOW A COWARD REDEEMED HIMSELF.

Charles Callender was captain of an artillery company at the battle of Bunker Hill. There was some criticism of his deportment during the battle, and he was cashiered for alleged cowardice and disobedience. He was dismissed "from all further service in the Continental army as an officer." But he could not have been very cowardly at heart, for he determined to wipe out the stain on his record. He remained in the army as a private, faithfully performed his duties as a common soldier, and watched for his opportunity. It came at the battle of Long Island. The captain and lieutenant of his company were killed. He assumed command and fought his guns with great bravery to the last. He was about to be bayoneted by a British soldier when an English officer, admiring his courage, intervened and saved his life. He was taken captive and remained a prisoner in the hands of the British for more than a year. After his escape and return, Washington ordered his former record expunged and restored him to his command. At the close of the war he was mustered out of service "with the highest honor and reputation."

## YOUR GRAY HAIRS QUICKLY VANISH

A HARMLESS REMEDY, MADE FROM GARDEN SAGE, RESTORES COLOR TO GRAY HAIR.

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is unnatural, and indicates that there is something wrong with the individual, and that Nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. If everything is right with nature, the hair should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature is restoring and preserving the hair is Wyeth's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff, but strengthens weak, thin and falling hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

Get a bottle today, and let it do for you what it has done for thousands of others.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists, Special agent, Weinmann-Matthews, 118 Congress street.

James Allen, of Superior township, Henry S. Gale of Plymouth is visiting with his nieces and nephews of Superior and Salem townships.

Lloyd Ward and family of Milan spent Saturday and Sunday with his sister, Mrs. J. A. Gale, and family.

Mrs. Clarence Crane has been entertaining her mother, Mrs. Woolgast, and sister, Miss Mae Woolgast, of Plymouth, also Marvin Sprague, of Howard Tyler of Highland Park, Detroit. The party motored from Detroit, Sunday.

Joe Green motored to his sister's home, Mrs. A. L. Wilbur, Wednesday. Mr. and Mrs. Justin Gale spent Thursday at the State Fair and the week end with Prof. F. W. Robison and family.

## MARTINSVILLE

Martinsville, Sept. 22.—Thomas Monks has gone to Royal Oak to move his son here. He will live with his father the coming winter.

Fred Borrsch made a trip to Detroit last week with a load of chickens and was well pleased with the amount of money they brought him. He received \$1.25 per bushel for a load of potatoes.

Theodore Sheldon has the wall and cellar completed of his father's house and has bought a house of O. W. Miller and moved it up here. There is still a kitchen to build also a woodshed.

Mr. and Mrs. Wm. Rounsifer is entertaining the latter's two sisters, Mrs. Grace French, of Romulus, and Mrs. Minnie Aiken, of Hand Station. Glenn Sheldon came home sick Saturday but went back to Milan again Sunday night where he is working. Rev. Mr. Grant and Homer Sage were the guests of Mr. and Mrs. Schaar last Sunday.

## MUSIC IN THE HOME

The Very Best Way of Spending the Long Evenings of Fall and Winter

With the advent of Autumn our thoughts turn naturally to the question of indoor recreation—how best to spend the long evenings at home—how best to interest and entertain the young people when outdoor recreation becomes impossible.

MUSIC furnishes the very best answer to this problem.

EVERY HOME should contain a Piano—and nowhere else will be found such a wonderful collection of Leading Makes as our great Fall stock presents. Here you may compare, side by side, the world-famous STEINWAY, the artistic SOHMER, the excellent VOSE, the popular STERLING, the superb GRINNELL BROS. (our own make), the dependable WEGMAN, the SMITH & BARNES, the HUNTINGTON, the MENDELSSOHN and others. Who could not be suited perfectly with such a line of matchless instruments from which to choose?

## Purchase Easy For Every Home

We sell splendid new Pianos on terms as low as \$10 down and \$6 monthly. Good used Pianos that have been thoroughly repaired may be had on even easier terms. What music-loving home need be without a Piano—why put off starting the young folks in the study of music?

Visit our store and inspect the many beautiful Pianos on exhibition—learn of the EXTRAORDINARY VALUES we are able to give through buying for TWENTY-FOUR stores instead of but one. It will certainly pay you well to call.

Major Leagues Hope to Be Benefited Next Spring by the Additions—Some Veterans to Be Given Another Trial.

"Comebacks" will be numerous at the big league training camps next spring—not aged "comebacks" of the class of Tom Hughes and Jimmy Callahan, but youngsters and semi-vets who were up before and failed to make good because of inexperience or accidents. Their relegation to the minors did not mean that they did not have the stuff in them. On the other hand, it simply meant that they were not quite ripe for fast company. Consequently he goes back to develop. Well, there were many such men pulled back by the draft or purchase during the last few weeks. Cleveland has seven of them, in fact. Catcher O'Neill of Worcester was an Athletic recruit, as were Pitcher Collamore of Scranton and Utility Player Hyde Barr of New Orleans. Third Baseman Manusich of New Orleans has been a member of the New York Giants as well as the Athletics. Outfielder Williams was with the Browns last spring, while Catcher Konnick of Dayton was given

## BENDER PRAISES PELTY.

Says Browns' Pitcher Would Be Worthier if With a Strong Team.

Big Chief Bender says that the finest curve pitcher in the American league is Barney Peltz of the St. Louis Browns. He says that Barney has a curve that sweeps and breaks at the same time. "There he such a physical rascally," said the chief, "and I never saw anybody who could touch him for a curve. When it is breaking right it is a cross between a hook, a fadeaway and a daisy curve, all rolled into one. "If Barney was with a real team, a winning team, with that curve and his change of pace, he'd make 'em all go some to lick him."

## Fielding and His Publisher.

In the Hutch collection of autograph letters being prepared for sale by auction in the middle of the month is the original agreement between Fielding and Andrew Miller for the publication of "Tom Jones." It bears date March 25, 1749, and in consideration of payment of the sum of £600 absolutely makes over the copyright to the publisher.

The work is described as "a certain book printed in six volumes, known and called by the name and title of the 'History of Tom Jones—A Foundling,' written by me, the said Henry Fielding." An autograph receipt for the money shows that it was paid on June 11, 1748, nine months before legal transfer was made. The novelist's need of cash is indicated in a letter bearing his picturesque but illegible signature, dated July 9, 1738.—Westminster Gazette.

THREE PLAYERS WHO WILL BE GIVEN ANOTHER CHANCE IN FAST COMPANY.

a trial by Cincinnati. Third Baseman Bunting of Worcester was taken south by Brooklyn last spring.

Detroit gets a "comeback" in Pitcher Dubuc of Montreal, who was with Cincinnati for a season. Chicago gets a pair in Pitcher Horvik, formerly of Washington, and Third Baseman Rath, who was tried out by the Athletics and Naps. St. Louis will try out First Baseman Danzig of Sacramento, once with Boston, and Pitcher Brown of Akron, who was a Cincinnati recruit a year ago.

Washington gets First Baseman Flynn, late of Pittsburgh; Shortstop Foster, formerly a Yankee, and Outfielder Moeller, once with the Pirates. There are more "comeback" recruits in the National league, the list being headed by Otto Hess, bought by Boston. The Rustlers have also hooked First Baseman Houser of Indianapolis, who used to be with the Athletics.

Brooklyn has taken the most men. Ebbets' recruits are Paige, formerly of the Giants and Naps; Infielder Reilly, formerly of the Chicago White Sox; Outfielder Welchone, a former Philadelphia National; Vedder Sittin, once a Nap; Pitcher Carmichael, tried by Cincinnati; Earl Yingling, another ex-Nap; Jerry Downs, with Detroit for several years; Catcher Bob Higgins, another former Nap, and Catcher Shaw, a veteran who played with at least four big league clubs before he landed with Toronto.

Other National league "comebacks" are Pitcher Maxwell of New York, Outfielder Hyatt of Pittsburgh, Outfielder Cravath of Pittsburgh, Infielder Kirk of Boston and Pitcher Compton of Cincinnati.

## Seven Months of Artificial Light In the Home

Sight is one of the most precious possessions of men, women and CHILDREN.

During seven months of the year, most of the close application of eyesight in your home is by artificial light.

Is the artificial light in your home good or bad?

Before the long evenings come when the family gathers near the LIGHT—look into this matter carefully.

ELECTRIC LIGHT is the best light in the home. It is economical and it is far more convenient than any other form of lighting.

Insurance companies rank electric light the safest.

## Society News

**First Brother**... The first meeting... season of the Presbyterian Brotherhood will be held in the Presbyterian chapel Friday evening, Sept. 29. The Brotherhood will give a roast beef supper in the church dining room Friday evening, Oct. 13.

**Young People to Meet**... A business meeting of the young people in Mrs. Pettit's Sunday School class will be held at her home on Ellis street this evening. The annual election of officers will take place at this time.

**Chapter Work Planned**... The Choir Chapter of St. Luke's church held their regular meeting at the rectory Thursday afternoon. General plans for the fall work were discussed. Among other things it was decided that the chapter will not give a big entertainment this year as has been done for a number of years previous. The next meeting will be held Oct. 19 at the home of Mrs. Arthur Sullivan on Chicago avenue.

**Annual Meeting Monday**... A meeting of the Advisory Committee of the Baptist church was held Thursday evening at the home of Rev. and Mrs. Pettit on Ellis street. Considerable enthusiasm was shown in the plans discussed at this time for the work of the coming year and in the annual meeting of the church which will be held Monday evening. The annual reports of the church will be given and the election of officers for the coming year will be held at this meeting.

**Interesting Missionary Meeting.**... An interesting meeting of the Missionary society of the Presbyterian church was held at the chapel Thursday afternoon. On account of the rainy weather there was not as large an attendance as usual. In the absence of the president, Miss Norton, Mrs. C. M. Creighton presided. An instructive paper on missions was presented by Miss Jennine Chatterton which was followed by a number of book reviews and talks on mission work by well known men. Miss Letha Trebilcock played a piano solo. Among those present was Miss Caroline Weed of Cedar Rapids, Iowa, who was formerly a member of the society. The next meeting will be held the third Thursday in October.

Miss Hazel Palmer was an Ann Arbor visitor Wednesday.

The friends of Clarence Corbett will be pleased to know that he is doing nicely at the University Hospital after his recent operation and it is hoped that he will be able to come home within two weeks.

Miss Bertha Buell of Ann Arbor has returned to Ypsilanti to resume her work as teacher in the history department at the Normal College.

Mr. and Mrs. S. E. Crawford are spending today in Detroit with friends. Mr. and Mrs. Edward Lawrence and baby of Pontiac are the guests of the former's mother, Mrs. Marian Lawrence.

Arthur Lathers of Inkster was an Ypsilanti visitor Thursday.

Mr. and Mrs. Howard French and son, John, of Leonard, Mich., have

been visiting at the homes of A. D. Moore and Mrs. Emma Daniels.

Mr. and Mrs. William Judd of Syracuse, N. Y., are guests at the home of Dr. and Mrs. G. M. Hall.

Mrs. Susan Graves left Thursday for Cincinnati where she will visit friends.

The early limited cars going to Detroit this morning were all crowded with State Fair visitors.

Mrs. William Thompson of Hudson is visiting her mother, Mrs. E. P. Allen, for a short time.

Mrs. Darwin Gotham of Watertown, N. Y., is the guest of Mrs. Caroline H. Bennett of River street.

Arthur Erickson of Whitehall has been elected to fill the position of principal of the Normal high school in place of Foss O. Eldred who resigned to practise law.

Miss Rose Miller of the Cleary Business College left today for her home at New Haven where she will spend a few days.

Mrs. Alice Miller and daughter of Emmet street have returned home from spending the past few days with Mrs. Miller's sister, Mrs. King, of Superior.

The friends of Emerson Moore, who left Ypsilanti in August for California, will be glad to know that he is pleasantly located in Los Angeles, where he has secured a good position in a jewelry store. He expresses himself as very much pleased with both the country and the people.

**BIG ATTENDANCE  
ANTICIPATED AT  
NORMAL THIS YEAR**

The prospects are brighter this year than ever for a record breaking attendance at the Normal College as the large number of letters received at the general office are any criterion by which to go.

Although no definite estimate can be given at this time it is thought that there will be more students this year than ever before. The work of the college proper will open in all departments for work Tuesday, Sept. 26, and classifications will be made on Saturday and Monday.

A number of changes have been made in the faculty in the various departments. Owing to Prof. Magers' resignation to go to the Marquette Normal his classes in physiology will be taken by Miss Phelps and her classes will be taken by Miss Meta Daniels who is a graduate of the college and has taken considerable post-graduate work.

Fred B. McKay has been appointed assistant in reading and oratory to fill the vacancy made by the death of Miss Lillian Olt during the summer. Mr. McKay is a graduate of both the Normal and the University and comes to Ypsilanti from Amherst, Mass., where he has been assistant professor of public speaking in the Massachusetts Agricultural College.

K. O. T. M. M. MEMBERS  
HAVE UNTIL DECEMBER  
TO ELECT CHANGE

Following are some of the changes in rates made at the special review of the Great Camp, Knights of the Modern Maccabees, held at Port Huron. This readjustment was in the rates to be paid by members in the old current cost plan, known as Class One.

Any member may transfer to Plan B (sixty year term), Plan C (seventy year term), Plan D (whole life), Plan G (seventy year annuity), by paying the rate provided for in such plans, at three years less than his attained age.

He may transfer to Plan D (whole life), or Plan G (seventy year annuity) by paying the rate as provided for said plans at age of entry into the Society, by having the present value of the difference between his rate at entry age and attained age, charged against his certificate to be deducted at death without future interest on the amount of said lien.

If he does not elect before December 1st, 1911, to transfer to any of these plans, he may continue to pay his present rate, and the value of the difference between said present rate and the rate of his attained age, will be charged against his certificate and be deducted with compound interest at 4 per cent.

Dwight Wilson (better known as "Bud") will coach the football team this fall. Mr. Wilson after his graduation at the Normal College went to Charlevoix where for three years he was superintendent of the schools and coached the teams in both football and baseball.

Arthur Erickson who graduated from the University in June has been chosen to succeed Foss O. Eldred as principal of the high school. Mr. Erickson graduated from the Normal College in 1903.

A number of changes have been made in the training school teaching force. Miss Olive Davis who has been critic in the grades for the past two years has resigned to go to Monmouth, Oregon. Miss Gertrude Smith will have charge of the third grade in the Woodruff school. Miss Inez Rutherford who graduated in June will take Mrs. Janet Howell's place in the domestic art department as Mrs. Howell has resigned to become head of the Stanley Hall school at Minneapolis. Miss Helene Kneip who has been studying at Columbia College the past year has returned and will resume her position as critic in the kindergarten. Miss Minnetta Sammis who had Miss Kneip's work during her absence will have charge of the kindergarten in the Prospect school. Miss Blackman of New York will take Miss Arnot's place as head of the domestic science work.

**Not Really Essential.**  
Agnes, the tenth child, aged six, was a quiet little girl, taking a very serious view of life. She was carried to her mother's room to make the acquaintance of the eleven arrival, a brother. Her attention was called to the beauty of this gift from God. She looked earnestly at the object of praise, trying to see the bright side of the situation, then said, "He is very nice, but we did not really need him."

### Massage For Naughtiness.

Almost invariably when a child is cross or naughty it is not feeling quite well.

This fact appears to be recognized in Japan. There if a child is naughty or sulky its parent does not scold it or whip it, but sends it out to be massaged. And in a short time the child comes back in the best of humor.

A well known worker, whose experience both of Japan and of matters of education is very wide, told a newspaper representative that she is convinced of the efficacy of the Japanese treatment. "It may seem funny on the face of it," she stated, "to massage a child for naughtiness. But, then, if the causes of naughtiness are physical suitable remedies must be applied. Very often the irritability of children arises from the fact that their stomachs are disordered."

And really the Japanese plan is worth a trial. Parents would probably be surprised at the result. One can imagine the conversations at breakfast and lunch between husband and wife. At breakfast the wife observes: "Johnny is very naughty this morning, my dear. I think you must punish him severely." The husband: "Oh, no; that is out of date. His little stomach is upset. He must be massaged." At lunch, the husband, "And how is Johnny now?" The wife, "Oh, he was massaged, and in half an hour he had an angel temper."

But could not the idea be applied to grownups as well as children?

### About School Lunches.

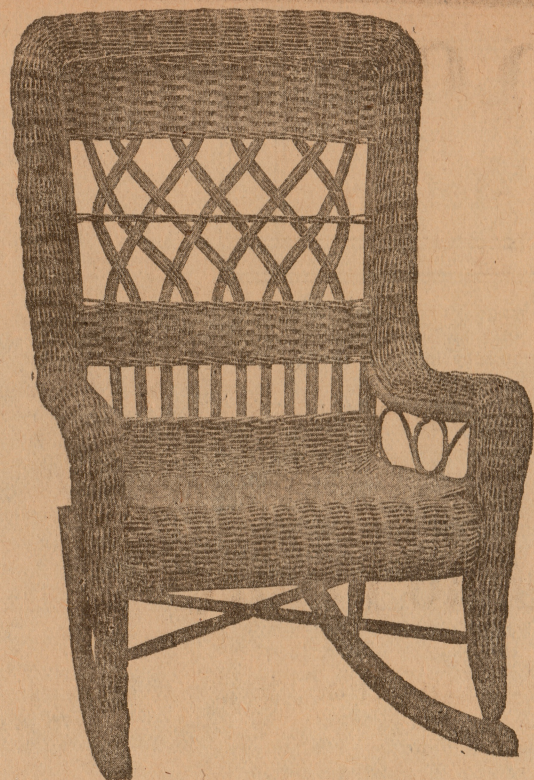

If there is one thing more than another which is apt to grow monotonous it is the school lunch. Invariably it consists of a sandwich or two, some cake and a piece of fruit.

This is wholesome and sensible as far as it goes, but too many mothers forget to widen the scope of this trio. The sandwich, for instance, may be most temptingly made and new ideas be called upon to make it more attractive. Instead of one good sized sandwich try making two or three smaller ones of thin bread cut in round, square or diamond shapes. One may use chopped nuts, peanut butter, celery and mayonnaise, chopped olives, dates, figs or prunes, finely minced cross or lettuce as well as the more prosaic roast beef, cold chicken, lamb, tongue or ham. Cheese, too, is nourishing and delicious. One might include a cheese sandwich, for instance, with one of meat or lettuce. Then when they are made and ready to be packed don't forget that a covering of tissue or oiled paper will keep the bread fresher and the sandwich daintier.

Vary the bread too. Use the whole wheat or brown bread or even rye bread occasionally if the child likes it. Butter tins or biscuits make a pleasant change from the plain white bread.

Crisp little cookies or small cakes are often easier to carry and carry better than layer cakes.

## RUSSIAN PLANS OCEAN TERROR

New Submarine Cruiser Will Have Twenty-five Knots Speed.

TO CARRY 30 TORPEDO TUBES.

Apparatus With Which She Is Fitted Will Enable Her to Sink in Three Minutes—Of Great Value For Blockade Work.

A submarine cruiser 400 feet long and displacing when submerged 5,435 tons has been designed by a Russian naval engineer named Shuravieff. The designs are now being considered by the Russian government.

No submarine vessel yet built has a displacement of more than 700 tons, and the 1,000 ton mark is just being reached in this country and in Germany with vessels laid down this year.

M. Shuravieff's design is really for a protected cruiser which can be submerged when required. When steaming on the surface its displacement would be 4,500 tons, while engines capable of developing a maximum horsepower of 18,000 would give an estimated speed of 25 knots.

The apparatus with which the vessel is fitted in the designs would enable her to sink in three minutes, and when below the surface internal combustion motors of 4,400 h. p. power would give a maximum speed of 14 knots. The fastest submarines yet built are the British vessels of the D class, which can make 16 knots on the surface and 9 when submerged.

Thirty Torpedo Tubes.

The submarine cruiser will be equipped with five 4.7-inch guns so mounted that when the ship is about to descend they can easily be stowed away below decks. The vessel will also have the unprecedented armament of thirty torpedo tubes, all of which will, of course, be available in either the surface or submerged conditions.

Hitherto the greatest number of torpedo tubes mounted in submarines is seven, this number being carried by the French Archimede, Charles Brun and Admiral Bourgois. No British boats have more than three and most only two.

The Shuravieff submarine cruiser will also be furnished with 120 submarine mines, which she will be able to lay in the form of a field without coming to the surface at all.

The value of the boat for blockade work, should she be adopted and prove successful, would be enormous, since she would be able to get into harbor unseen, discharge sixty torpedoes at the vessels inside, two torpedoes being carried for each tube, and then lay a string of mines across the mouth of the harbor.

A deck of armor would cover the machinery and other vital parts of the cruiser, the total weight of armor used being 337 tons.

PANAMA CANAL HAS REACHED ITS FULL WIDTH.

Five and One-half Miles of the Big Ditch Extended to 500 Feet.

The Panama canal has just been extended to its full width and about half of its complete depth at the Atlantic entrance. Here the bottom of the waterway will be 500 feet wide and the depth will be forty-one feet. From deep water as far inland as the old French canal, or about five and a half miles, the entrance has been widened

to the required 500 feet, and a depth of at least twenty feet has been reached over this distance. A fleet of dredges is now clawing away at the bed rock to excavate the remaining twenty-one feet. This width of 500 feet and depth of forty-one feet ultimately will extend from deep water to the Gatun locks, a distance of seven miles. The minimum width of the canal will be 300 feet in Culebra cut and the maximum width 1,000 feet in Gatun lake. The usable width of the locks of the canal, however, will be only 110 feet.

With every disposition to encourage the investment of capital in the development of the isthmus of Panama, the government is resolved that it will not permit the issue of concessions by the Panama congress that will in any degree threaten the business of the canal. Attention has been drawn to the subject recently by the passage of a law in Panama granting a concession to a company to construct a railroad entering the city of Panama from a mining country to the southward. It has been alleged that the concession is so drawn as to permit the construction of extension of lines of road that might cross the isthmus and so prove to be an active competitor for business with the canal. There is already a project under way for the construction of a railroad entering Panama from David on the north, but this is regarded as desirable because it will form part of the great intercontinental railway system to be developed, of which the United States is committed. If it can be shown that the projected southern road can be likewise made available as part of this system and that it cannot be turned into a cross-road between the Caribbean and the Pacific, it is probable that the state department will make no objection to the concession. A careful inquiry is being made to ascertain the facts.

Persistent Rocks.

Rocks have built a nest on a telephone pole in a busy thoroughfare in the center of Dover. As soon as the nest assumed any dimensions it fell, or was blown from the pole, and then the birds attached it to the insulators. Telephone employees knocked the nest down but, undaunted, the birds set to work and have built again.
